

Notification for Dental Insurance

There are now many changes in Healthcare beginning in 2014. Some of these changes include dental and vision. **All patients now must take the active role of tracking their copays, deductibles and available benefit dollars.**

The Center for Smile Design and staff will do everything to work with you and your insurance company to provide the best care possible. Your insurance company and The Center for Smile Design may not always agree with the form of treatment. We will provide all information necessary to your insurance company for review of all treatment. However, if your insurance company still does not agree with the treatment, **you will be responsible for all costs of the treatment not paid by your insurance company.**
